

I'm not robot!

Based on the information provided, this document is a comprehensive technical manual for the ArcGIS-based SDSS (Spatial Decision Support System) application. The manual is organized into several main sections, each detailing a specific aspect of the software's development, usage, and underlying technology.

**Key Sections and Topics:**

- Introduction and Overview:** Discusses the purpose of the SDSS, its development goals, and the role of the ArcGIS-based SDSS in environmental planning and decision-making.
- System Architecture and Components:** Details the software's architecture, including the client-server model, the ArcGIS-based SDSS application, and the ArcGIS Server environment.
- Data Management and Integration:** Explains how data is managed, stored, and integrated into the SDSS, including the use of ArcGIS Server, ArcSDE, and various data sources.
- Modeling and Analysis:** Describes the modeling process, the use of ArcGIS-based SDSS for spatial analysis, and the integration of various models and datasets.
- User Interface and Usability:** Provides information on the user interface, navigation, and how to interact with the SDSS application.
- Deployment and Maintenance:** Offers guidance on how to deploy the SDSS, manage updates, and maintain the system.
- Appendices and References:** Includes additional resources, such as glossaries, acronyms, and references to related literature.

The manual is written in a clear, technical style, providing detailed instructions and explanations for each step of the process. It is intended for users who are familiar with ArcGIS and SDSS concepts and are looking for a comprehensive guide to the ArcGIS-based SDSS application.
